NBCS Pedagogy in EYFS

At New Bewerley Community , our pedagogical approach is centred on nurturing independence and confidence in our children through creating a supportive and nurturing environment where hands on and play based learning is valued. Our children are encouraged to explore, make mistakes, and learn through their own efforts developing resilience and celebrating 'I did it!' moments.

At New Bewerley, we have high aspirations for all children, offering a balance of structured learning alongside child led learning opportunities to support accelerated progression. We recognise that each child is unique and develops at their own pace, learning is adapted to support each pupil's individual strengths, abilities, and aspirations, ensuring they are supported and their contributions are valued.

Our key strategies include providing a range open-ended materials alongside concrete resources, encouraging children's curiosity, valuing their questions and ideas, and giving them genuine responsibility for their learning. We offer a warm, inclusive environment where all children feel safe and welcome. Alongside adult guidance and support, our oracy rich learning environment allows our children the space to explore and problem-solve on their own, viewing mistakes as opportunities for growth and allowing them to develop their potential without fear of judgment.
